QAP3 - Java

1. How many hours did it take you to complete this assessment?

This assessment took me around four and a half hours to do.

2. What online resources you have used? (My lectures, YouTube, Stack overflow etc.)

I used the lectures, O'Reilly and YouTube to help me with this assignment.

3. Did you need to ask any of your friends in solving the problems. (

No.

4. Did you need to ask questions to any of your instructors? I

No.

5. Rate (subjectively) the difficulty of each question from your own perspective, and whether you feel confident that you can solve a similar but different problem requiring some of the same techniques in the future now that you've completed this one.

I feel like I could work on completing another assignment like this. I was getting confused when I had to add question four to three but I think it will get easier after some more practice.
